California Western Railroad / Skunk Train located in the redwood forests of Northern California's Mendocino County, is a heritage railroad that has been operating both freight and passenger service since 1885. Initially used to move redwood logs to the Mendocino Coast sawmills from the rugged back country, the Skunk Train has become a beloved institution touted as one of the "10 Best Rail Tours in the Country" (USA Today), and a "Top 10 Family Activity in California" (National Geographic Traveler). The Skunk Train journey covers 40 miles of scenic delights and 30 bridges, all while retaining its original charm—minus the historic pungent aroma that once preceded its arrival. Operating year-round, this multi-generational experience welcomes passengers to bring along their families and even their dog, ensuring a memorable and inclusive adventure.
